

# SAFETY DATA SHEET

Issue Date: 27 April 2022 Version 1.0

## Section 1. Identification

<b>Product Identifier:</b>	<b>GLIX-20™ – PART A</b>
<b>Other means of identification:</b>	Product code: 10000001, 10000004, 32000001, 32000002.
<b>Recommended use of the chemical and restrictions on use:</b>	Used in conjunction with GLIX-20™ parts B and C to make a reagent solution for the detectORE™ gold analysis process. Only to be handled by trained staff. Use only as directed.
<b>Details of manufacturer or importer:</b>	Portable PPB Pty Ltd 42 Tulloch Way, Canning Vale, Western Australia, Australia 6155
<b>Telephone Number:</b>	+61 8 6248 7714
<b>Emergency Telephone number:</b>	24 hours - +61 400 217 972 (GMT +8)

## Section 2: Hazards Identification

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail, NON-DANGEROUS GOODS.

Based on available information, not classified as hazardous according to Safe Work Australia, NON-HAZARDOUS CHEMICAL.

**Poisons Schedule (SUSMP):** None allocated.

**Signal Word:** Not applicable

**Hazard Statements:** Not applicable

**Precautionary statements:** Not applicable

**Prevention:** Not applicable

### Response

IF SWALLOWED: Never give anything by mouth to an unconscious person. Rinse mouth with water.

IF INHALED: If breathed in, move person into fresh air, if not breathing, give artificial respiration.

IF ON SKIN: Wash with plenty of soap and water.

EYE CONTACT: Flush eyes with water as a precaution

### Storage

Store in a well-ventilated place. Keep container tightly closed.

### Other hazards

None

**Hazard Symbols:** Not applicable

## Section 3. Composition and information on ingredients

Chemical Identity	Synonym	CAS Number	Proportions (%w/w)
Thiourea	Sulfoarea Thiocarbamide	62-56-6	< 1.0%
Disodium Phosphate	Sodium phosphate dibasic	7558-79-4	< 10.0%
Non-Hazardous ingredients (materials)	-	-	To 100%

## Section 4. First aid measures

For advice, contact a Poisons Information Centre (e.g. phone Australia 131 126; New Zealand 0800 764 766) or a doctor.

Have the product label or SDS with you when calling or going for treatment.

**Ingestion:** If swallowed, never give anything by mouth to an unconscious person. Rinse mouth with water.

**Eye Contact:** Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses.

**Skin Contact:** Wash off with plenty of soap and water.

**Inhalation:** Move person to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest.

**Symptoms caused by exposure:** Common symptoms (see section 2 and or in section 11)

**Medical attention and special treatment:** No data available

## Section 5. Firefighting measures

### Suitable extinguishing equipment:

Use water spray, alcohol-resistant foam, dry chemical, or carbon dioxide.

### Specific Hazards arising from the chemical:

Sulphur oxides, Sodium oxides Not combustible.

### Special protective equipment and precautions for firefighters:

Wear self-contained breathing apparatus for firefighting if necessary.

**Hazchem Code:** Not applicable.

## Section 6. Accidental release measures

### Personal precautions, protective equipment, and emergency procedures:

Avoid dust formation. Avoid breathing vapours, mist, or gas.  
For personal protection see section 8.

### Environmental precautions:

No special environmental precautions required.

### Methods and materials for containment and cleaning up:

Sweep up and shovel. Keep in suitable, closed containers for disposal.

## Section 7. Handling and storage

### Precautions for safe handling:

Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.

### Conditions for safe storage, including any incompatibilities:

Keep container tightly closed in a dry and well-ventilated place. Do not store near acids.  
Keep in a dry location.

## Section 8. Exposure controls and personal protection

Component	TWA 8h	TWA 5 days	STEL	Peak limitations (if available)
Thiourea	-	-	-	-

No exposure standard assigned for this specific material by Safe Work Australia. However, Workplace Exposure Standard(s) for constituent(s) has been shown in table.

*Note: As published by Safe Work Australia Workplace Exposure Standards for Airborne Contaminants.*

*TWA - The time-weighted average airborne concentration of a substance when calculated over an eight-hour working day, for a five-day working week.*

*These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as clear defining points between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.*

### Engineering controls:

Use in well ventilated areas or provide suitable mechanical air extraction system.

### Individual protection measures, for example personal protective equipment (PPE):

Eye and face protection

Use suitable equipment for eye protection.

Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product.

Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Respiratory protection

Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use suitable respirators or dust masks.

Thermal hazards

No data available.

Other information.

Reference standards for (PPE).

Respiratory protection: AS/NZS 1715 and AS/NZS 1716.

Gloves: AS/NZS 2161.1.

Eye protection: AS/NZS 1336 and AS/NZS 1337

## Section 9. Physical and chemical properties

**Appearance:** Powder-crystalline. Off-White

**Odour:** No data available

**Odour threshold:** No data available

**pH:** 6 - 7 at 200g/L

**Melting point/freezing point:** No data available

**Boiling point and boiling**

**range:**

**Flash point:** No data available

**Evaporation rate:** No data available

**Flammability (solid, gas):** No data available

**Upper/lower flammability or**

**explosive limits:** Not flammable

**Vapour pressure:** No data available

**Vapour density:** No data available

**Relative density:** 1.7-1.75 g/cm<sup>3</sup> at 20°C

**Solubility:** Soluble in water

**Partition coefficient: n-**

**octanol/water:** No data available

**Auto-ignition temperature:** No data available

**Decomposition temperature:** 100 °C

**Viscosity:** No data available

*Other physical/chemical parameters*

**Specific heat value:** No data available

**Saturated vapour**

**concentration:**

**Release of invisible flammable** Not flammable

**vapours and gases:**

<b>Particle size (average and range):</b>	No data available
<b>Size distribution:</b>	No data available
<b>Shape and aspect ratio:</b>	No data available
<b>Crystallinity:</b>	No data available
<b>Dustiness:</b>	No data available
<b>Surface area:</b>	No data available
<b>Degree of aggregation or agglomeration, and dispersibility:</b>	No data available
<b>Redox potential:</b>	No data available
<b>Biodurability or biopersistence:</b>	No data available
<b>Surface coating or chemistry:</b>	No data available

## Section 10. Stability and reactivity

<b>Reactivity:</b>	No data available
<b>Chemical stability:</b>	Stable under recommended storage conditions
<b>Possibility of hazardous reactions:</b>	No data available
<b>Conditions to avoid:</b>	No data available
<b>Incompatible materials:</b>	Strong oxidizing agents
<b>Hazardous decomposition products:</b>	Combustion or thermal decomposition will evolve toxic and irritant vapours such as sulphur oxides, sodium oxides.

## Section 11. Toxicological information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

**Ingestion:** No adverse effects expected, however, large amounts may cause nausea and vomiting.

**Eye contact:** No eye irritation expected. Exposure to the dust may cause discomfort due to particulate nature. May cause physical irritation to the eyes.

**Skin contact:** No irritation expected.

**Inhalation:** Breathing in dust may result in respiratory irritation.

**Acute toxicity:** No data available

**Respiratory or skin sensitisation:** No data available.

**Chronic effects:** No data available.

**Germ cell mutagenicity:** No data to confirm criteria.

**Carcinogenicity:** No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed human carcinogen by IARC.

**Reproductive toxicity:** No data available

**Specific target organ toxicity - single exposure:** No data available.

**Specific target organ toxicity – repeated exposure:** No data available.

**Aspiration hazard:** No data available.

Other information

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Hazardous properties cannot be excluded but are unlikely when the product is handled appropriately.

## Section 12. Ecological Information

**Ecotoxicity:** Avoid contaminating waterways.

**Persistence/degradability:** No data is available.

**Bioaccumulative potential:** No data is available.

**Mobility in soil:** No data is available.

**Other adverse effects:** No information available (environmental fate, ozone depletion, photochemical ozone creation potential, endocrine-disruption potential, and global warming potential.)

## Section 13. Disposal consideration

Persons conducting disposal, recycling or reclamation activities should ensure that appropriate personal protection equipment is used, see "Section 8. Exposure Controls and Personal Protection" of this SDS.

If possible, material and its container should be recycled. If material or container cannot be recycled, dispose in accordance with local, regional national and international Regulations. For the unused product, offer surplus and non-recyclable solution to a licensed disposal company.

For product mixed with soil, the soil material properties should be determined and accordingly disposed in accordance with local waste discharge licenses and or approvals.

In most states, EPA, local council and water boards will require the site occupier/operator to manage and have suitable waste effluent treatment facilities.

## Section 14. Transport Information

### ROAD AND RAIL TRANSPORT

Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail. (ADG Code).

**Special precautions for user:** No data available

### MARINE TRANSPORT

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

## AIR TRANSPORT

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

## **Section 15. Regulatory information**

### **This material is not subject to the following international agreements:**

- Montreal Protocol (Ozone depleting substances)
- The Stockholm Convention (Persistent Organic Pollutants)
- The Rotterdam Convention (Prior Informed Consent)
- Basel Convention (Hazardous Waste)
- International Convention for the Prevention of Pollution from Ships (MARPOL).

### **This material/constituent(s) is covered by the following requirements:**

- the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP) established under the Therapeutic Goods Act 1989 (Cwlth) (as amended). **If so, list the relevant Poisons Schedule number** - Not listed.
- All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).

### **Source of data**

This SDS has been prepared in accordance the Safe Work Australia Preparation of safety data sheets for hazardous chemicals Code of Practice prepared under the [Work Health and Safety Act and Work Health and Safety Regulations](#).

Code of Practice: Labelling of workplace hazardous chemicals

'Standard for the Uniform Scheduling of Medicines and Poisons No. 35'

### *Hazard Classification*

[Australian Inventory of Chemical Substances](#) (AICS) (NICNAS)

[Chemical Assessment Reports](#) (NICNAS)

[Workplace Exposure Standards for Airborne Contaminants](#)

[Globally Harmonized System of Classification and Labelling of Chemicals](#) (GHS)

(United Nations) [Global Portal to Information on Chemical Substances](#) (OECD).

OECD means the Organisation for Economic Cooperation and Development.

[Hazardous Chemical Information System](#)

[European Chemicals Agency](#) (ECHA)
